

# TELMEX Voice Services

We serve some of the most strategic markets in Latin America, offering a full portfolio of services ranging from wholesale terminating minutes to end user services, such as: traditional analog lines, digital trunks, ITFS, hosted IP PBX, corporate voice, domestic and long distance plans, and more.

Wholesale Voice Services are available in Mexico, Argentina, Brazil, Chile, Colombia, Peru, Uruguay and United States.

Options for basic analog lines or E1-PRI digital lines are available, plus support for either IP or traditional PBXs.

We offer voice services for your customer's needs in Latin America using our international and domestic networks.

Telmex offers a full range of specialized services, as well as proactive monitoring.

Business continuity solutions guarantee uninterrupted operation and seamless interconnection to our robust network.
